

## **Ikea Italia Retail, Italy Stands in Solidarity with the Workers of Ikea on Stoughton**

Filcams-CGIL Italy supports in solidarity the workers at the IKEA Stoughton store who have endured a campaign of coercion, intimidation and misinformation to prevent them from exercising their rights to form their own Union.

By failing to intervene in anti-worker activities in the United States, IKEA Global is jeopardizing the company's reputation. IKEA USA is going against IKEA GLOBALS core values and code of conduct.

We demand IKEA to stand by its own values and develop constructive labour relations in the USA and we will continue to support workers at IKEA USA and the UFCW in holding the company accountable for falling short in securing fundamental workers rights.
